

BentTree Custom Homes
1575 Plaza West Dr, Suite B
Prescott, Az 86303

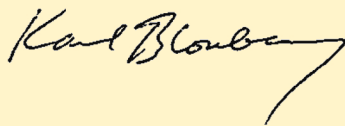

Dear Mike,

Thank you so much for everything you did in the planning, modification, and construction of our new home! It all turned out great! We couldn't be more pleased with the level of attention and commitment you displayed while overseeing our project. I especially appreciated the patience you had in dealing with us, relative to the changes we brought about, due to the "unusual" design elements of the home itself. I found it very comforting that you stayed "tuned in" to the project with regard to all the different phases of construction. I not only knew you would keep everything on track, but also knew you would handle any of these changes we thought necessary in a very timely manner. And while changes did occur on a fairly regular basis, due to the somewhat "unique" layout of our home, and our inability in being to visualize how things would look until construction actually began, you maintained a very calm and possitive attitude, as well as a "can do" spirit through it all.

We want you to know that anyone who may be considering your construction of their home is more than welcome to contact us at any time, or feel welcome to stop by and see for themselves how well everything turned out.

Again, Mike, please accept our deepest thanks for everything you did, and please accept this as the highest letter of recomendation possible. Please stay in touch, and know that if we ever build a new home again, there could not possibly be anyone other than yourself that we would even consider.

Sincerely,

A handwritten signature in black ink, appearing to read "Karl Blouberg". The signature is written in a cursive style with a long, sweeping tail on the final letter.
